

HYBRID EPC - Wide Plank – 178 & 225 x 12mm x 1800mm.

Our Lifestyle wide plank flooring is an exciting addition to our Hybrid range, it's available in 8 colours including popular selections, Blackbutt & Spotted Gum. Lifestyle Hybrid flooring provides interior water-resistant protection against topical spills and when little accidents happen. It features an attached acoustic IXPE foam sound pad to deliver whisper quiet foot comfort & sound absorption.

Lifestyle Hybrid flooring features class leading unique décor visuals with excellent pattern variability. Area of install will determine pattern repeats; carton & plank blending is required to deliver an optimal outcome. The planks are manufactured from a composite polymer & stone fibre core (EPC) combining a commercial grade **0.7mm Vinyl wear layer**: the end result provides durability with charming visual decors ideal for everyday living.

Our hybrid floors must be installed with 200µm builders' film to impede moisture ingress. Installation guidelines must be followed for warranty compliance. The IXPE foam underlay is acoustic only, it is not a moisture barrier.

Lifestyle Collection Hybrid EPC - Click			178 & 225 x 12mm	
Colour	Scotia	Trim	WPC Scotia	M2 / Ctn
Almond – 225	Rock	Snow	Crystal Lake	1.215
